Continuing its claim in retail banking with its products and services, DenizBank has joint its efforts with those of Reha Medin Real Estates Services, which is one of the first real estate chains in Turkey and they together have broken a new ground.

According to this cooperation, if the consumers who are going to buy houses via the intermediation of Reha Medin real estate offices take their housing loans from DenizBank, they also gain the opportunity of benefiting from the campaign called **“Buy your house now, start paying in 2008”** .

Within the scope of the campaign, the consumers who apply for a loan in the Reha Medin real estate offices in October and November can effectuate their first payments in 2008.
